

WORKING AT CAMP IS A **REAL** JOB!!

LEADERSHIP

Leadership is learned in a real-life context (not made-up or contrived!) At CYJ you are part of a team, supervising between 12-16 campers, engaging in decision-making and behavior management, and living and working in shared spaces. All necessary leadership skills for today.

21ST CENTURY SKILLS

A summer at CYJ will challenge you in the areas of communication, collaboration, critical thinking, creativity and problem solving. Honing these skills at camp can make your resume much more attractive to potential employers.

NETWORKING OPPORTUNITIES

Joining the CYJ team literally adds hundreds of people to your network. Camp staff, camp alumni, board members and camper parents can all provide possible links to future internships and job offers in a variety of careers.

LETTERS OF RECOMMENDATION

Your camp supervisor can write a great letter of recommendation. At camp your supervisor gets to know you as an individual. Interacting with you on a daily basis gives them a true look at your character.

DIVERSE & GLOBAL EXPERIENCE

CYJ brings campers and staff together with many different cultural perspectives. Texas, Florida, California, New York, Mexico, Colombia, UK and Israel are all well-represented at CYJ!

PROFESSIONAL DEVELOPMENT

CYJ invests in you throughout the summer. You will have the opportunity to work with various professionals. Guest speakers and staff programming provide ongoing opportunities for growth.

TRAINING & CERTIFICATIONS

CYJ will cover the cost of any additional training your position may require. Lifeguarding, CPR, First Aid, Ropes Course and Archery are all specialized trainings offered at CYJ. These certifications are yours to take with you after camp and may help you land cool jobs back home or in college.

RESUME BUILDER

Camp is a unique job and a great conversation piece when interviewing with potential employers. We will help you put camp on your resume in a way that highlights all the skills and experiences gained while spending a summer working at CYJ. This job is anything but filler on your resume!

ROOM & BOARD

Working at an overnight summer camp can save you big bucks! Housing, meals, laundry, utilities and gym are all provided to you. Low spending means more money in your pocket at the end of the summer.

PAYCHECK

It won't be millions, but at the end of the summer you get to take home a very well-deserved paycheck. Signing before December 31st, returning after a year as a CIT or spending a year in Israel are all opportunities for increased salary. Minimal spending while at camp allows you to take home almost all of your earnings!
